Editor in Chief

Dr Cahyo Budiman
Okinawa Institute of Science and Technology, Japan

Managing Editors

Slamet Widodo, M.Sc
Kyoto University, Japan
Yusuf Wibisono, M.Sc
University of Brawijaya, Indonesia
Agung Wibowo, M.Sc
University of Goettingen, Germany
dr Fauzan Azhari Marzuki, Sp.KK
Hasanuddin University, Indonesia
Arif Nuryawan, M.Sc
Kyungpook National University, South Korea
Wetra Yandi, M.Sc
Linkoping University, Sweden

Editors:

Natural Science and Mathematics

Dr Heny Budi Utari
Mahidol University, Thailand
Dr Abdul Hannan
Imperial College London, United Kingdom
Dr Hadi Susanto
University of Nottingham, United Kingdom
Dr Willy Bayuardi Suwarno
Bogor Agricultural University, Indonesia
Dr Epi Taufik
Bogor Agricultural University, Indonesia
Dr Muhammad Tayab
University of Veterinary and Animal Science, Pakistan
Dr Bimo Ario Tedjo
Universiti Putera Malaysia, Malaysia

Engineering

Dr S. M. Abdur Razzak
Rajshahi University of Engineering and Technology, Bangladesh
Dr Muhammad Kemal Agusta
Osaka University, Japan
Dr Fahmi Amhar
Geospatial Information Agency, Indonesia
Dr Chusnul Arif
Bogor Agricultural University, Indonesia
Dr Md. Rafiqul Islam
Shahjalal University of Science and Technology, Bangladesh
Dr Nopriadi Hermani
Gadjah Mada University, Indonesia
Dr Hendrawan
University of Technology Malaya, Malaysia
Dr Pri Hermawan
Bandung Institute of Technology, Indonesia
Dr Lukman Noerochim
Sepuluh Nopember Institute of Technology, Indonesia
Dr Muhammad Kholid Ridwan
Gadjah Mada University, Indonesia
Dr Diding Suhandy
University of Lampung, Indonesia

Social Sciences

Dr Ahmad Shiozaki Yuki
Doshisha University, Japan
Dr Jaleel Abdul Adel
University of Illinois at Chicago, United States of America
Dr Ruzita Mohd. Amin
International Islamic University, Malaysia
Dr Sulfikar Amir
Nanyang Technology University, Singapore
Dr Valeed Ahmad Ansari
Aligarh Muslim University, India
Dr Toseef Azid
The Markfield Institute of Higher Education, United Kingdom
Dr Eko Ruddy Cahyadi
Bogor Agricultural University, Indonesia
Dr Abdul Azim Islahi
King Abdul Aziz University, Kingdom of Saudi Arabia
Dr U. Maman KH
Syarif Hidayatullah State Islamic University Jakarta, Indonesia
Dr Dwi Condro Triono
Sunan Kalijaga State Islamic University Yogyakarta, Indonesia

About JISTECS

Journal of Islamic Perspective on Science, Technology and Society (JISTECS) is motivated by the progressive researches in many disciplines during the last century on the one hand and the lack of spiritual values in such researches on the other hand leading to less enlightening science for humanity and civilization.

Hence, JISTECS attempts to develop proper links between science and Islam as a way of life that has a specific view on science and civilization. For this purpose, we design JISTECS as a unique peer-reviewed open access on-line scientific journal that provides an interdisciplinary, international and interfaith forum for scientist from any discipline areas. JISTECS is regularly published by Association of Indonesian Moslem Scholar (PRIMA) enables the PRIMA to expand the service to provide an intellectual forum to assess relation of science and technology with Islamic society. It encourages reflective thinking and progressive working toward development of science and technology in Islamic world. In addition, JISTECS welcomes interfaith scholars to actively join, as we believe that development of Islam is important for world society, regardless of ideology.

Aims

JISTECS is a unique peer-reviewed open access on-line scientific journal that provides an interdisciplinary, international and interfaith forum for scientist from any discipline areas. JISTECS welcomes submissions of review and regular research papers. JISTECS is regularly published by Association of Indonesian Moslem Scholar (PRIMA) aiming to publish papers using Islamic perspective as a framework to carry out researches in multidisciplines and submit proper recommendations. Consequently, it moves the framework out of laboratory to a public domain and impact development of science and technology for Islamic society. Compared with other existing scientific journals, some features of JISTECS are unique. To date, JISTECS is the first ever journal that allows interdisciplinary, international and interfaith scientist to publish their works on relation of Islam and science, technology and community.

Scope

JISTECS covers many disciplines including natural and social science as well as engineering. This journal encourages submission of original papers as well as reviews that meet at least one of the following criteria:

- Empirical researches which are applied in Moslem countries and convey a significant contribution to a better development in the Moslem world
- Either empirical or theoretical studies that show the application of Sharia or Islamic concept in many disciplines including natural science, politics, economics, education, law, etc
- Studies that contribute to learn from any failures due to the ignorance of Islamic principles in many disciplines including natural science, politics, economics, education, law, etc
- Studies exploring creations of the Creator (Allah) that are motivated by the words of the Creator (the Holy Quran).

Ethic Statement

Ensuring the quality, an accountable peer-review system and strict ethical policies standard are applied by JISTECS. It is necessary to agree upon standards of expected ethical behavior for all parties involved in the act of publishing: the author, the journal editor, the peer-reviewer, and the publisher. JISTECS seriously takes ethical issues and our editors are trained to proceed in such cases with a zero tolerance policy. Fair play mechanism is applied; in which JISTECS at anytime evaluate manuscripts for their intellectual content without regard to race, gender, sexual orientation, religious belief, ethnic origin, citizenship, or political philosophy of the authors.

Printing and binding

For some purposes, printed version of JISTECS might be required for some parties. JISTECS hosts a printing and binding requisition service providing an official print version of all JISTECS articles in certain edition. Kindly contact us for detail information.

Online advertising and announcement

JISTECS highly supports worldwide scientific activities: conferences, workshop and so on. We provide free space for an online advertising and announcement of those scientific activities. For commercial advertisement, we may charge you based on the pixel size.

All services related inquiries, please feel free to contact us at secretariat@jistecs.org.

Publisher

PRIMA Indonesia or Association of Indonesian Moslem Scholars is independent, intellectual and non-profit organization which promoting better scientific and technological advancement, good governance and clean government, welfare and health society in the Moslem world.

Since its establishment in 2009, many researchers, students and professionals had joined PRIMA. The members of PRIMA specialize on various field of expertise, with the following distribution: Food, Agriculture, Biotechnology and Environment, Industrial, Nuclear, Material and Chemical, Medical Sciences and Biomedical, Mathematics and Natural Sciences, Economic, Management and Finance, Electrical Engineering and Information Technology and Politics and Social Sciences.
